

Leaving no-one behind

Policy changes can have unintended consequences especially for vulnerable groups. We must ensure they do not widen equity gaps.

What teams told us:

“

"It was clear that we cannot do an intervention on maternal health and ANC without looking at adolescents."

“

"Most of the girls come to us very late, sometimes when they are almost due. They fear being judged."

“

"Many teenage mothers don't have National IDs or birth certificates."
