

Strong government leadership, ownership and investment are essential for sustainable, integrated community health systems that serve everyone.

Your Health Our Priority for a Healthy Nation

"When government prioritizes and invests in community strategy or in health innovations, then we see huge results."

"We want the government mobilizing domestic resources so that we don't have to depend on partners all the time."

"When C-it DU-it leaves, the CRF must remain ... it should be adopted nationally!"
